Energy performance certificate (EPC)

Flat 18 Blake House Queensmead Road HIGH WYCOMBE HP10 9XE Energy rating

Valid until: 14 August 2035

Certificate number:

7820-9186-0130-4007-1523

Property type

Top-floor flat

Total floor area

66 square metres

Rules on letting this property

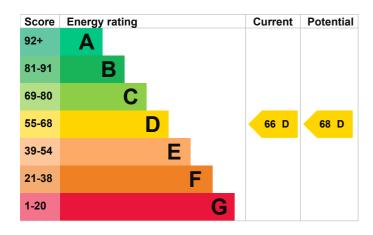

Properties can be let if they have an energy rating from A to E.

You can read guidance for landlords on the regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Energy rating and score

This property's energy rating is D. It has the potential to be D.

See how to improve this property's energy efficiency.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

| Feature | Description | Rating |
|----------------------|--|---------|
| Wall | Cavity wall, filled cavity | Good |
| Roof | Pitched, insulated (assumed) | Average |
| Window | Fully double glazed | Poor |
| Main heating | Warm air, mains gas | Good |
| Main heating control | Room thermostat only | Poor |
| Hot water | From main system, no cylinder thermostat | Poor |
| Lighting | Below average lighting efficiency | Average |
| Floor | (another dwelling below) | N/A |
| Air tightness | (not tested) | N/A |
| Secondary heating | None | N/A |

Primary energy use

The primary energy use for this property per year is 233 kilowatt hours per square metre (kWh/m2).

Smart meters

This property had **no smart meters** when it was assessed.

Smart meters help you understand your energy use and how you could save money. They may help you access better energy deals.

Find out how to get a smart meter (https://www.smartenergygb.org/)

How this affects your energy bills

An average household would need to spend £1,061 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £62 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2025** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 6,471 kWh per year for heating
- 2,582 kWh per year for hot water

Impact on the environment

This property's environmental impact rating is D. It has the potential to be D.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

Carbon emissions

An average household produces

6 tonnes of CO2

| This property produces | 2.8 tonnes of CO2 |
|--------------------------------------|-------------------|
| This property's potential production | 2.6 tonnes of CO2 |

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Steps you could take to save energy

Step Typical installation cost Typical yearly saving

1. Replacement warm air unit £750 - £5,000 £63

Advice on making energy saving improvements

Help paying for energy saving improvements

You may be eligible for help with the cost of improvements:

- Free energy saving improvements: Home Upgrade Grant (www.gov.uk/apply-home-upgrade-grant)
- Insulation: Great British Insulation Scheme (www.gov.uk/apply-great-british-insulation-scheme)
- Heat pumps and biomass boilers: Boiler Upgrade Scheme (www.gov.uk/apply-boiler-upgrade-scheme)
- Help from your energy supplier: Energy Company Obligation (www.gov.uk/energy-company-obligation)

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

| Assessor's name | Adam Comiskey |
|-----------------|-----------------------------------|
| Telephone | 01844 318 288 |
| Email | admin@expertsurveysolutions.co.uk |

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

| Accreditation scheme | Quidos Limited | |
